INSIDE

Welcome to the 2015 gardening season and your new catalogue. Inside you will find a host of new products and your usual favourites at our lowest ever prices. We are highly grateful for your continued custom and would also like to offer our thanks to everyone who took the time to leave feedback on our independent 'Feefo' review service. We are overwhelmed by your satisfaction rating of 99% and will be busting a gut to achieve 100% in 2015.

Choose the Right Pond for your Garden

EasyPond Depths & Fish Stocking Information

Smaller Sets (EasyPond 2000-8000) suggested max. depth 60cm (2 ft). Ideal ornamental or goldfish ponds.

Larger Sets (9000-30000) suggested max. 1m (3' 3") depth. Suitable for higher fish levels and/or koi.

There are no limits to a pond size. This information is given as a guide only. For other pond sizes please get in touch with your dimensions and we can help.

Pump Detail

All handle solids and can run 24/7.

Price Match Guarantee

At Pondkeeper we never take our customers for granted and pride ourselves on offering the best products and service. We know you can choose to shop elsewhere and we want to ensure that you are delighted by your experience with us.

Our Price Match guarantee provides reassurance that we will match any UK price across our entire range of 1500 products*.

Our expert team is ready for your call

Expert Advice

We only sell pond products - nothing else.

Since 2005 we have dealt with thousands of happy customers. We listen to what you have to tell us and use that information to make our service even better.

*Compared products must be new goods in complete original packaging. Auction sites excluded.

Pond Liners

HALF PRICE
Underlay with all
40yr Flexiliners

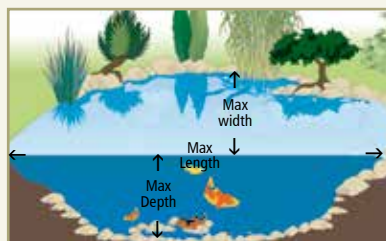

Calculating your liner size

Length = max. pond length + (depth x 2) + 1m overlap

Width = max. pond width + (depth x 2) + 1m overlap

Check out our 'ready reckoner' in the first column of our liner listings (opposite) which shows the resulting pond size of each of our liners using this formula.

Choice of pond shape and depth is up to you. We recommend that a part of the pond should be at least 1m deep (3' 3") to provide an area where fish can keep warmer overwinter. Larger and deeper ponds are easier to maintain. Most of our customers surveyed wished they had gone bigger!

Conversion:

Mtrs to feet: Multiply by 3.28

Ltrs to gallons: Divide by 4.54

Pond size figure shown for guidance only.

Pond can be any depth, suggested overlap of 1m included.

Please allow 3-7 working days delivery for rubber and large PVC liners.

Pond Liners

All successful pond projects start with a good waterproof pond liner. A pond liner provides a watertight membrane to stop pond water seeping away.

Firestone Rubber 1.02mm

Firestone is our thickest liner for maximum puncture prevention. **£6.25 per sqm.** See Pg 8 Overleaf for sizes

Half Price Fleece Underlay with all Firestone Liners

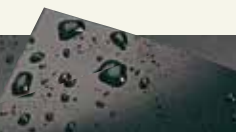

PVC Pond Liner

We have extended our range of 0.5mm PVC liners this year. Thicker than LDPE but not tearproof. These are priced:

15yr guarantee **£2.49 sqm.**
30yr guarantee **£2.99 sqm.**

Half Price Underlay with 30yr PVC

Butyl rubber

First choice for professionals for many years. Lifetime guarantee (20yrs on 140sqm plus), 0.75mm thick.

£7.49 per sqm.

EPDM rubber

Same physical characteristics as Butyl but with significant cost savings. Lifetime guarantee (20yrs on 140sqm plus), 0.75mm thick. We find that this synthetic rubber now outsells butyl.

£5.49 per sqm.

Being a pond liner specialist means we offer the lowest prices. However, if you find a liner cheaper in the UK we will happily match that price*

*New goods, non-auction web sites

Underlay

We recommend that all pond liners are underlaid as extra protection for your liner. It helps to prevent root penetration and punctures from small stones/debris. Underlay supplied matches the sqm of our liners.

"Basic" is a budget underlay, providing a good level of protection. Particularly suitable for small ponds or where sand is used as a primary barrier.

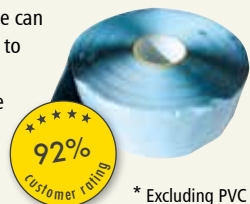

£1.10 per sqm.

"Pond Fleece" premium underlay is a heavy 200gsm needled felt. Recommended for all ponds - particularly larger liners or stoney ground.

£1.70 per sqm.

Cold Glue double-sided tape can be used on all liners* - use it to join liners together or to fix punctures or tears. 5cm wide (2inch) 2mm thick.

£4.00 per linear mtr.
£30.00 for 10m roll

* Excluding PVC

Oase PVC Pond Patch Kit

High performance underwater adhesive with PVC liner piece (40x20cm). Works with all PVC liners.

RRP £14.99 **£12.49**

Over 60 more sizes exist online - We can supply any of the listed widths in maximum lengths of 100' (30.5m)

Concrete Pond Accessories

Concrete ponds are finished with a layer of render to create a smooth surface. You then need to seal this later to stop the water getting in and the lime seeping out.

You need 3 coats of clear G4 when you apply it to a pond. This is a total of 550g per square metre.

Example: lets say the pond is 3m x 2m and 1m deep.

1. Work out the area of the bottom
(in example $3 \times 2\text{m} = 6\text{sqm}$)
2. Find the area of one of the sides.
Then multiply by 2 to cover both sides.
(in example sides $1 = 2 \times 1 = 2\text{sqm} \times 2 = 4\text{sqm}$)
3. Find the area of the other pair of sides:
(in example sides $2 = 3 \times 1 = 3\text{sqm} \times 2 = 6\text{sqm}$)
4. Add up sides and floor
($6\text{sqm} + 4\text{sqm} + 6\text{sqm} = 16\text{sqm}$)
5. Multiply total by
 $550\text{gsm} = 16 \times 0.55\text{kg} = 8.8\text{kg}$

Over Liner Mat

Planting material with pockets. Hide exposed liner with plants for a more natural look.

1.10 x 1.05m
RRP £22.00
£14.99

Oase Tradux liner Transition

Hide away your pond connections to create a professional finish. A really nice finishing touch - provides a below-the-waterline smooth watertight transition for cables and/or hose.

RRP £36.99
£24.99

Outdoor Power Management

The use of weatherproof outdoor switchboxes mean you just need one cable to your mains supply and you can control your equipment pondside. Any lengths of exposed outdoor cable should be housed in a metal sheath to prevent accidental breakage.

PondXpert Outdoor Switchboxes

Outdoor switchboxes are essential pondkeeping kit. These sturdy switchboxes offer a number of outlet options and are easy to wire up. Max load 1080 watts, max load per outlet 360 watts. Inlet accepts standard outdoor cable.

3-way RRP £39.99 **Our Price £29.99**

4-way RRP £49.99 **Our Price £34.99**

5-way RRP £59.99 **Our Price £44.99**

6-way RRP £69.99 **Our Price £49.99**

3-way for Armoured RRP £59.99 **Our Price £49.99**

Powersafe Switch Box

Allows connection of up to 5 electrical cables from one standard mains cable. Easy installation and outlet is individually fused - if one blows the others continue. Max load is 1000w for first outlet and 300w for remainder.

2 Way RRP £49.99 **Our Price £29.99**

3 Way RRP £57.99 **Our Price £34.99**

4 Way RRP £76.99 **Our Price £44.99**

5 Way RRP £103.99 **Our Price £59.99**

PondXpert Electrical Cable Connector

Joins electrical cable with a watertight seal but has the benefit of being able to 'snap off' the connection.

This means that outdoor items such as pond pumps can be easily disconnected and removed when necessary (eg, winter).

Comes supplied with a cap to protect the open circuit when joined product is removed.

RRP £24.99 **Our Price £19.99**

Powersafe RCD

Added safety. Designed specifically for water gardening. Great for pond vacuums.

2 Way RRP £27.49 **Our Price £19.99**

PondXpert Electrical Cable Joiner

Waterproof connector - perfect for extending power cable length.

£8.99

Armoured Cable

£4.00 per metre

Water Courses

Most ponds have a waterfall. They create a real focal point and the bubbling water helps to oxygenate the pond. Also you will find a natural bank of earth is created by the displaced soil after your pond dig. The following pages show the best preformed watercourses on the market today.

Atlantis Similar Rockfalls are made out of tough fibreglass but the surfaces are hand finished to resemble real stone. These falls can be used individually or joined together to create a longer stream.

(Dimensions cm W x L x Pour)

Our Price £64.99

Double Step 55x90x38 RRP £98.99
Our Price £89.99

Filbert Frog's Top Tip

Genuine stone waterfalls look great but are incredibly difficult and heavy to work with. These realistic falls look the part and are far easier to install.

NEW

Fed by a 20-32mm hosedtail Atlantis struck gold with their affordable 'Mid' smaller waterfalls last year. This year we have an extended range to choose from. All have a very natural appearance and feature a discreet water entry point fed by a hosedtail.

Simply attach your pump and enjoy.

Water Courses

Rockways Rustic Slate Watercourse

This is the finest watercourse we have seen. Supplied in a rustic slate finish it looks incredibly realistic and would grace any water garden. The course is modular so it can be run as a three piece structure (as shown) or changed to a two or four piece structure. The top piece includes a 32-20mm hose inlet so the water feed can be disguised.

Overlapping 3 shelf feature as shown is approximately 1.7m x 1m x 0.8m LxWxH

Recommended flow rate 2400lph

Water supplied by hidden hosedtail into a specially cut 'well' to create a natural flow.

A) **Top** - Shelf with inlet 70x105x15cm

Stainless Steel Waterfalls

Niagara Stainless Steel Waterfalls

Give your pond a contemporary look with our range of Stainless Steel waterfalls. They deliver a perfect sheet of water with amazing reflective qualities. They can be fitted in a variety of ways depending on the look of your pond; either built in or fixed to a wall. Each one comes with a 25mm hosetail that can be sited either at the back of the waterfall or in the base (and a blanking plug for the other one).

Please note that these waterfall blades have been designed for a maximum installation height of 1.2m to reduce the natural "V" formation of the water and to minimise wind effect.
*Lower flow rates based on a height of 60cm."

These stainless-steel designer waterfalls can be built into a wooden or stone wall, or easily mounted onto a wall with just a few screws. They can also be used to create a dramatic effect as your clean water leaves it's filter system.

Frog RRP £59.99 **Now £29.99**

Hippo RRP £59.99 **Now £29.99**

Floating Fish Dome

See your fish from a whole new perspective! The Koi Dome from Velda sits on the surface of your pond and as you watch your fish will become highly visible and appear to leap out of the water!

By placing some treats inside the dome your fish will be happy to perform.

Koi Dome

35cm diameter RRP £120.25

Our Price £89.99

Koi Dome

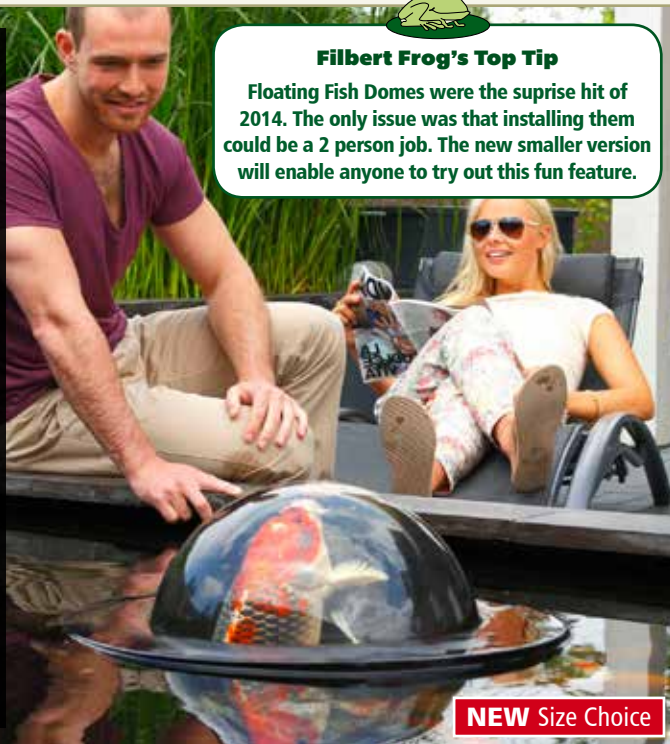

50cm diameter RRP £141.70

Our Price £99.99

Filbert Frog's Top Tip

Floating Fish Domes were the surprise hit of 2014. The only issue was that installing them could be a 2 person job. The new smaller version will enable anyone to try out this fun feature.

NEW Size Choice

Handy Garden Gadgets

Battery Operated Water Pump

This handy tool can be used to top-up your pond with water from a water butt. It will transfer virtually any liquid in minutes and has a hundred and one uses round the house or garden:

- Emptying aquariums
- Clearing Up Spills
- Dishwasher dirty water traps.
- Washing Machine Leaks

Pumps up to 350 litres / hour. Runs on 2 x 'D' batteries (not supplied).

RRP £19.99 **Our Price £14.99**

Tetra Treatments

Popular treatments for green water, blanketweed & cloudy water. 1 litre bottle for 500ml price.

Crystal Water £14.99

AlgoRem £14.99

AlgoFin £14.99

100% Free

Manual/Water Pressure Pond Vacuums

Laguna Vacuum Kit

Includes Power Vac nozzle that can be used to collect dirt and debris, Hydro Brush ideal for cleaning side surfaces whilst sucking and a discharge bag.

RRP £30.99

Our Price £19.99

Tornado Pondvac

Uses water pressure from standard garden hose to create suction. This collects waste in a re-useable muslin bag, allowing the clean water to pass through. The special brush attachment has rollers which glide easily over the pond bottom. Comes complete with a lightweight telescopic aluminium handle (4ft reach) and 3 year guarantee.

RRP £29.99 **Our Price £22.99**

Attachable Net £9.99

Special Offer - Pond Vac & Net for £24.99 - save £8

Pond Pumps

Your pond pump creates water movement and can fulfill a number of actions. We stock the complete range - see below for which type is right for your needs.

All in One

pg 19

All-in-one pump and filter units are a recent innovation that does away with the idea of a separate pump, filter and UVC. Here everything is built into one handy submerged unit. Perfect for patio ponds and newcomers to the hobby.

Solar Pumps

pg 23

Eco-friendly and no wires! Low flow only but perfect for small ponds

Feature Pumps

pg 30

Specially designed to power water features.

Fountain Pumps

pg 32

Create a beautiful display and most offer multi-directional flow to a waterfall or filter too (however, we always recommend a filter pump when using a filter).

Filter Pumps

pg 36

Perhaps the most important pump for your pond. All our filter pumps are designed to be able to pump large particles of solid matter (up to 12mm) to your filter. These pumps are tough and designed to run 24/7 in all weathers. Great for powering waterfalls too.

All in one Pumps

Multi-function, compact pond technology solutions specially designed for smaller ponds. The traditional pond system includes a pump, UVC and external filter as separate but intertwined units. The thinking behind these new products is to combine all three of these essential items in one compact, submerged unit.

The benefits of this idea are:

- Easy no-fuss installation
- Completely hidden under the water surface - no conspicuous filter boxes, hoses or multiple electrical cable
- Just connect item to electrics, place underwater, switch on... and that's it!

Extra model choices for 2015

PondXpert Triple Action

The new PondXpert All-in-One contains everything you need to run healthy algae-free popular sized ponds. A new more powerful 4000 model joins the popular 3000 in offering a pump, UVC and filter in one compact unit.

3000 1000lph pump, 13w UVC, suitable for fish ponds up to 2000 litres

RRP £129.99 **Our Price £49.99**

4000 2000lph pump, 9w UVC, suitable for fish ponds up to 3000 litres

RRP £159.99 **Our Price £69.99**

Both pumps come complete with 5m power cable and stepped hosetail 20-25mm

Filbert Frog's Top Tip

The TripleAction is a super price. The sponge filter means maintenance has to be a little more regular but this can be a small price to pay.

feefo Customer Review

"Brilliant product, needs cleaning about once a week, but it's soooooo easy, will recommend to any one with a small pond."

PondXpert All4One

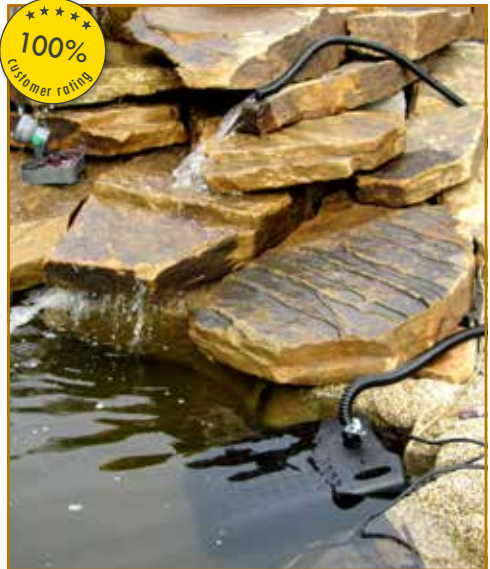

A filter, pump and UVC unit in one submersible unit.

Recommended for use in Ponds up to 4000 litres (including low stocks of fish). Large filter surface area, large internal filter foams and bio-media.

Feature Pumps

Sometimes you need a pump to power a water feature. This could be indoor or outdoor. Perhaps a drilled rock or an ornamental statue. In this instance the best results are obtained by using a feature pump.

The benefits of using a feature pump are that they can draw water from lower levels (ie shallow reservoirs), are highly compact and run at low noise levels.

Oase Aquarius Universal Pump

The Oase Neptun pumps are ideal for powering statutory fountains & water features.

- Low level suction and noise
- Simple fully controllable flow and thermal overload protection
- Dry installation below water surface level is possible (600 upwards)
- Removable foot ensures stability (3000 on)
- Can remain outside in winter (3000 on)
- Eco 3000/4000 set new standards in low running cost
- 10m power cable and 5 year guarantee

Fountain Pumps

For many an attractive fountain has come to symbolise all that is good about the perfect water garden. From the aesthetically pleasing view of an ever-changing water display to the relaxing patter of falling droplets.

A fountain pumps offers you all of this and more! Your pond and it's inhabitants will thank you too as the moving water helps to aerate the pond by increasing oxygen levels.

Most fountains can do more than one job. For instance part of the water flow can be diverted to create a stream or waterfall.

They can even be used to power a filtration system - especially the 'hybrid' fountain pumps which can handle solids.

Consider the fountain pump to be the star on top of the christmas tree.

Your pond is not complete without one . . .

PondXpert Fountasia Pumps

NEW Comprehensive range of fountain pumps offering top features and best value for money.

- Dual Flow Control via sturdy 'T' Piece.
- 1 year guarantee.
- 10m power cable (33 feet).

Bestseller

The Cascade falls under the well-known Hozelock brand. Like all of this group's water gardening products it offers a high level of quality at a competitive price.

The cascade pump is an ideal all purpose pump for small to medium displays, fountains, waterfalls or ornaments.

All pumps have a double outlet meaning you can run two features from one pump. eg. a waterfall and fountain and the flow to each can be controlled independently. 3 year guarantee up to 3 fountainheads (as shown).

Note: No 'T' piece with 450 & 700

Model	Fountain Heads	Hose Size	RRP	OUR PRICE

Fountain Pumps - Hybrid

The pumps featured on these pages are special as they can be used as a fountain pump or a solids-handling pump when required. Fountain pumps are often sold for 'universal use' but in reality if they are used to power a filter then the strainer cage will get quickly blocked.

Pontec Pondvario

Pontec Pondvario is unique - it can be run as a fountain pump or as a solids-handling filter pump. The 'wings' on it's protective shell can simply be clipped off allowing larger solids to pass through. Offered under Oase's bargain 'Pontec' brand you can be assured of engineering excellence from Germany backed by a 3 year guarantee.

PondXpert Flowmaster Pond Pump

At last a genuine solids-handling pump that can double as fountain pump when required. By removing the secondary (internal) strainer cage (supplied with 3500 & 4500 models only) the tough impellor can handle solids up to 5mm large. Simply reattach the internal strainer to utilise the fountain attachment. Simple but brilliant idea!

A genuine fountain pump

A genuine filter pump

Tough impellor handles solids with ease!

In our test pond the Flowmaster has worked continuously for six months so far. Evidence of the solids dealt with can be seen below in the 'before' and 'after' shots of our test filter bay.

3500 / 4500 impellor

Add lights if required

Flowmaster fountain attachment comes with a bracket that can be used to attach PondXpert pond lights (pg 92). Take advantage of our buy 1 get 1 free offer on the Sublight 20 and get two powerful lights for just

Filter Pumps

Solids handling pumps are often described in different terms such as 'Filter Pumps' or 'dirty water pumps'. What they are designed to do is to pump dirty water 24/7 to a filter and/or waterfall. Solid particles are able to pass through the large gaps in the pump outer strainer cage and the tough pump impellor pushes these particles out. This dirty water can then be pushed to a pond filter where foams catch the debris thus keeping the pond water clean.

How to select the right size pump for your pond

Flow rate

This is the power of flow or how much water the pump will move. - catalogue shows this as 'Max Flow LPH' Abbreviation stands for Litres Per Hour (LPH) and the larger your pond the higher flow you will need.

Flow requirements

A typical goldfish pondkeeper should aim to turn the water over once every two hours. A heavily stocked/koi pond should be turned over every hour.

Example: Pond Size 4x3m and 1m deep (13'x10'x3'). Maximum pond volume if rectangular with no steps = $4 \times 3 \times 1000 = 12000$ Litres (2643 gallons).

Guideline pump would be 6000lph (1321 gallons per hour). For a koi pond a 12000lph pump could be chosen.

Pumping Uphill

Pumps lose pressure when they pump uphill as they have to work against gravity. Typically a pump may be required to power a waterfall of 1m (3' 4") and these reduced flow rates have been listed for easy reference.

Using the example of the 12000 Litre goldfish pond above, if a 1m height was required then a suitable upgrade would be the Aquamax Eco 8000 which produces 6000lph at 1m.

PondXpert FreeFlow

New for 2013 the PondXpert FreeFlow looks to be a winning design. As the name suggests this pump promises smooth free-running. It makes use of the latest developments in pump technology.

The motor contains intelligence which means that it can change it's performance depending on the demands placed upon it. It recognises low water levels and will switch itself off to protect damage. It can handle solids up to 8mm and to work continuously with very little maintenance.

- Easy tool-free access to remove filter cage
- Pump automatically shuts down if low water level detected
- 3 year guarantee
- Ultra low running cost

PondXpert PondPush

This pump has been a bestseller since it was introduced a number of years ago. A very low returns rate proves how reliable this pump is.

- Ball joint facilitates hose connection. (pump outlet can be joined straight to hosedtail without ball if necessary)
- High performance asynchronous motor with energy saving
- Robust ceramic shaft which prolongs pump life
- Can pump dirt particles of size up to 6mm

Filter Pumps

Hozelock Aquaforce

One of our bestselling pumps from a trusted UK brand

The Aquaforce is a reliable solids-handling pump that will work 24/7. There is a choice for every pond size and larger models (6000+) come complete with a second inlet that can be attached to a skimmer or satellite strainer cage.

- Highly economical 'eco' motor.
- Unique Wildlife Protection System: Intake holes can be reduced to 2mm to prevent tadpoles, newts and small fish getting into the cage.
- Smaller pumps (1000-4000) can handle solids up to 6mm
- Larger pumps (6000-15000) can handle solids up to 10mm
- 3 Year Guarantee

Pond Filtration

Filtration is the process by which your pond is cleaned of impurities. With modern filters there are three major stages:

Ultra-Violet Clarifier (UVC)

The UVC subjects the pond water to UV radiation. This means that microscopic single-cell algae flocculate (stick together). The resultant large particle pieces are picked up by filter foams and prevented from re-entering the pond. This prevents your pond looking green (like pea soup).

Mechanical Filtration

Pond debris such as fish waste and dead pond plant particles are caught in mechanical barriers - typically foam. These foams are often graduated to catch even the smallest pieces.

Filbert Frog's Top Tip

Nature Ponds do not require a filter. They do require patience as they take longer to set up (perhaps 18 months) and you will need plenty of plants, probably covering 2/3 of the pond area. These plants and pond bacteria will use and digest any toxins left by fish and rotting organic waste. Any fish must be introduced slowly.

Making
**POND
BUILDING**
Easy

Biological Filtration

Finally pond water will often pass through a bed of bio-media. This material will typically have a multi-surface appearance (eg, floor or Kaldnes) on which friendly bacteria thrive. These bacteria will break down Ammonia, which is caused by dead and decaying organic matter, into Nitrite. A different type of bacteria then breaks this dangerous Nitrite down to Nitrate and will be absorbed by plants as they grow.

Which one is for me?

Filters are sold by the size of the pond they are designed to serve. We have indicated a 'Pond size' next to each filter which shows how the maximum pond volume the model will serve under 'normal' conditions (eg, average goldfish stock, semi-shade position, plenty of plants).

Main types of pond filters available:

A) Flow-through Filters

The traditional 'Box' filter sits pondside or at the top of a waterfall. Pond water is pushed into one end and returns via gravity from the other. These filters are generally larger and provide a massive area of filtration media to cope with larger ponds.

B) Pressure Filters

A more modern approach is to house the filter media into an airtight canister. The water enters the filter under pressure and leaves it under pressure allowing the filter to be hidden. Great for smaller ponds - these filters provide maximum landscaping opportunities.

C) Koi Filters

Koi are large fish which produce a lot of waste and eat pond plants. Therefore a koi pond require larger, more sophisticated filtration.

Flow through (Box) Filters

Blagdon Midipond Filters

This sophisticated filter boasts seven stages of filtration to ensure the cleanest of pond water. It includes a powerful UVC to combat green water and a venture aeration chamber to inject oxygen into the filtration process.

- Easy to clean mesh screen catches most solids.
- Graded Filter Foams x 3.
- Ceramic media bed breeds healthy bacteria.
- Fine wool filter catches smallest particles.
- Carbon foam removes pollutants
- Inlets 20-32mm, Outlets 40mm x 4

Hozelock EcoPower+ and EcoCel

These popular box filters have been used successfully for many years. The EcoCel is similar to the Ecopower+ the main differences being that it has no built-in UVC or sludge-drain. Both filters offer foam and flooror biomedica. Handily, the outlet (2 outlets on 10,000 models) is 40mm meaning standard hose can be used as extension pipe.

- 20-40mm inlet size.

Box Filters vs Pressure Filters

Experienced Pondkeepers will tell you that when it comes to filtration then size is important!

Despite the recent trend towards smaller pressure filters there is a lot to be said for large capacity box filters - especially if you are keeping a decent amount of fish.

- The foams and filter media are very easy to access.
- They can accommodate a larger cubic capacity of filter media.

Oase Biosmart Sets

Complete filtration sets from one of the top names in pondkeeping. Perfectly matched kit.

2 year guarantee with filters.

Filbert Frog's Top Tip

This is just a small sample of the large range of spares and replacement parts that we have in stock. Check out the new 'pond spares' section of our website for more info.

Pressurised Filters

Hozelock Bioforce Basic

This was the first range of pressure filters in the UK. One of our bestsellers the range has been reduced down to just two models in 2013. The new Bioforce 3000 was sold under the name Bioforce 5500 and the new Bioforce 4500 was previously called the Bioforce 8000. Don't worry, despite the confusing name change these filters continue to represent excellent value for money and proven performance!

Pressure Filters - Entry Level

Budget filters are our bestsellers. Versatile and perfect for those new to the hobby.

Our entry-level filters boast some key features:

- Mechanical filtration via filter foams
- Biological filtration via biomediat at the bottom of the filters.
- Backflushing feature for interval cleaning without removing the lid.
- Built-in UVC to prevent green water.

These filters will involve a degree of maintenance. As they are so effective the sponges will block up with debris over time and will require you to pop open the lid and wash the sponges out in clean (pond) water.

PondXpert EasyFilter

These new filters are a joy to use - simply rock the switch to the 'clean' position to backflush the filter of accumulated dirt via the special waste outlet. This dirty water can be directed to your drain or flowerbeds.

- Easy clean feature
- In-built UVC for clear water
- Gradiated foams for mechanical filtration.
- Biomedia for biological filtration.
- 30,000 was a bestseller last year now range extended to suit all sizes of garden pond.

So easy to clean . . . 'Rocker' handle switches from 'clean' to 'waste'.

Three inlet/outlets as found on more expensive filters. 20-40mm Inlet, Outlet & Waste (12-25mm 4500)

Filter media 4500

EasyFilter 20,000+

Introduced in 2010 these large pressure filters proved their reliability and were a real hit with our customers. Their large capacity mean that pondkeeper's with bigger ponds can now enjoy the benefits of pressurised filtration. The bigger filters come complete with increased features but still at a highly competitive price.

Dimensions (cm) 4500 - 27 x 37 cm, 9000 - 34 x 44 cm, 12000 - 34 x 52 cm, 20000 - 41 x 59 cm, 30000 - 41 x 69 cm

Tilt & pivot handle to adjust flow to 'waste'

Pressurised Filters

Bioforce Revolution

Hozelock Bioforce has always been one of our bestselling filters. Last year the Bioforce Revolution was introduced - completely re-engineering pond filters for the 21st century - and our customers loved it. This clever product features the best 'easyClean' feature we have ever see. The secret to its success is that the filter uses micro block sponge foam filters rather than the usual rings or blocks. This means that when static the foams act effectively as before but by applying pressure on them via the cleaning handle they disperse, bang together and shed their dirt far more effectively.

- Powerful UVCs prevent green water
- Efficient Biological Filtration (Kaldness K3 media in bottom chamber)
- Diverter valve switches dirty unwanted water to waste outlet
- Hose Inlets 20-25mm Classic, 25-40mm Bioforce Revolution.

The perfect filter upgrade. The Recommended pressure filter for koi/mixed fisheries.

PondXpert Spinclean Pressure Filters

These premium filters are brand new for 2012. From the robust durable plastic used in its construction to the quality of the fixtures and fittings it ships with everything points to a quality product.

Maintenance and cleaning of this unit is easy by using the external handle - this turns a row of internal 'paddles', agitating the filter foams. The dislodged dirt is ejected via the waste outlet.

Features:

- Quality features at a bargain price
- Tap on waste discharge valve
- Clear hoesetail so you can see if your water is dirty
- UVC 'working' indicator
- Waste indicator pops up on lid when filter needs cleaning

Dimensions: 6000: 41 x 38cm (height x diameter), 12000: 52 x 38cm (height x diameter), 20000: 73 x 38cm (height x diameter)

Inlet/outlet: 20-40mm, 12-25mm on 6000

Just look at our test results . . .

Fig. 1

Fig. 2

Fig. 3

We were astonished (and embarrassed!) by the amount of dirt the filter picked up. **Fig. 1** shows the discharge with **Fig. 2** showing the dirt continuing to flow. By **fig. 3** we were ready to switch the water back to the pond. After completing this very easy cleaning regime a few times in a fortnight the positive results were clearly visible. We would now like to show you perfect clear water but good pondkeeping takes time. Hopefully with 3 to 4 weeks maintenance the pond will be back to its best.

To periodically clean the filter sponges all you need to do is:

- 1) Switch the large blue dial to 'clean'
- 2) Pump the handle up and down
- 3) Watch as waste water is dispersed through waste outlet
- 4) Repeat process until waste water runs clear.
- 5) Return dial to original 'filter' position.

Laguna Pressure-Flo Filter & Clear-Flo Kits

These top performing pressure filters are worth a look - especially with their large UV power and unique cleaning system. When it is time to clean the filter you can utilise the unique Backwash Cleaning System where internal paddles scrape the filter foams clear of debris simply by the user pumping the handles.

- Mechanical filtration foam
- Biospheres bio-media (not 2500)
- High power UVC
- Simple backwash cleaning
- 3 year guarantee

Push & pull cleaning handles to clean

Normal Running

These top quality filters have been improved for 2015.

- Addition of 'Bio Rock' for healthier water
- Improved foams.
- Better cleaning brush handles and diverter Valve (now bright yellow)

16000 & 24000 incorporating pairs of 8000 and 12000 respectively. Supplied with sturdy T piece and hose.

Fish Mate Pressurised Filters - PowerClenz

Fish mate pressure filters have a strong following in the pondkeeping fraternity. The filters have been sold by us successfully for many years and continue to be a great choice. As well as the usual features such as built-in UV and long guarantee they exclusively boast patented **POWERCLENZ** cleaning technology. When Powerclenz cleaning is utilised this 'reverse thrusts' your pump power and the pressure compresses the filter sponges by as much as 100lb per square inch.

Hey presto - your filter sponges are cleaned by the flick of a switch!

Green colour and slimline lid mean the Powerclenz is inconspicuous when buried.

Koi Filters

NEW Colour Choice

All EazyPods now available in green colour finish too!

EVOLUTION
AQUA

EasyPod

Evolution Aqua produce the most modern pond filters on the market today. The Eazypod has been designed with small koi ponds in mind (10,000 litres - 2200 gallons) but it's superior design can also be employed on ornamental/goldfish ponds.

In this less demanding environment the Eazypod can handle up to 20,000 Litres (4400 gallons)

How it works . . . Regular Running

Dirty water enters filter and is drawn to the centre of the pod. Water passes through special Kaldness filter media which traps the dirt. Dirt gets stuck in the filter media - clean water returns to pond.

How it works . . . Cleaning

Switch off pond pump. Switch on air pump to agitate the filter media. Filter media bubbles up and dirt is dislodged. Run dirt to waste - Switch pump back on.

23inches (58cm) tall and wide

Model	RRP	OUR PRICE
EazyPod	£475	£394.99
EazyPod Air	£575	£474.99
EazyPod Air 18w UV	£645	£524.99

Air versions come complete with a 70lph air pump and fittings worth **£129.99**

Nexus 210 & 310 Koi Filters

For larger koi ponds the Nexus Eazy 210 and 310 are proving highly popular with our customers.

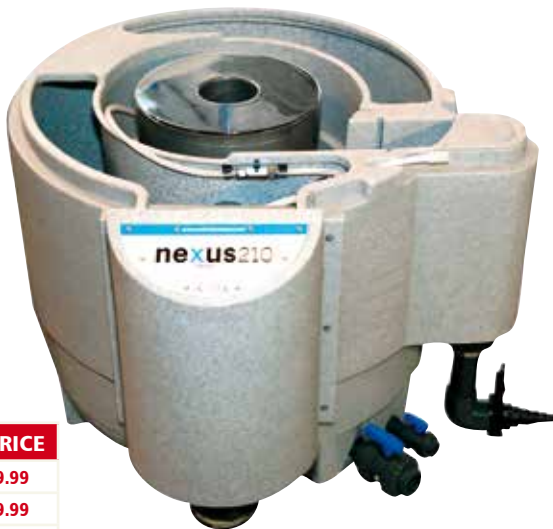

The concept of the vortex shape with the Eazypod is repeated but the air pump also supplies an outer chamber. This 'floating bed' is full of media and is rich in healthy bacteria to convert Ammonia and Nitrite into harmless Nitrate. The 210 can be used with koi ponds up to 18000 Ltrs (4000 gallons), the larger 310 up to 34000 Ltrs (7500 Gallons)

Dimensions (LxWxH)

210: 126x111x85cm

310: 143x132x103cm

Model	RRP	OUR PRICE
Nexus 210	£1,195	£1,099.99

Lower Price

Biotec 30 & 36 Filters are two of the largest filters available in the UK. At maximum operating capability they can service ponds of 120000/140000 litres respectively.

Biotec Filters 12, 18 and 36 all boast the Screenmatic automatic cleaning mechanism. This device catches larger granular debris before it reaches your filter sponges. This reduces maintenance.

NEW Biotec Value Sets - Exclusive to Pondkeeper

Drum Filters

Proficlear Premium Drum Filter System

Rotary "Drum Filters" are the mechanical filter of choice for serious pondkeepers. A rotating drum pushes solid particles to the outer edge of the drum where the waste is automatically collected on a fine mesh screen. The filter automatically detects when the screen is dirty enough to require cleaning - Once this is required the screen is jet-flushed with the dirt and debris directed to waste.

**Oase Drum
Filter System**

**The Future of
Koi Keeping
Has Arrived!**

Biological Filtration

The pond water cleansed of solids still requires biological filtration. A second "floating bed" module ensures that only healthy water returns to the pond. Further modules can be added to contain the pump (gravity system) or to increase the level of filtration.

Max. pond volume 100,00 ltrs (average fish stock e.g. goldfish); 45,00 ltrs Koi. Pump Fed Rotating Drum Filter accepts flow rates up to 25 m³/hr (25,000 l/hr). Intelligent command centre includes sophisticated plug & play microcontroller. Particle removal down 60 micron (thinner than a hair) for crystal clear water. Automatic power flush self-cleaning for minimum maintenance. The efficient cleaning cycle uses just 1.5 litres of pond water to complete the cleaning operation. Easily select from the various cleaning programs (Automatic, Timed & manual purge functions).

Proficlear Premium Drum Filter Module Our Price £2799.99 (Choose pump or gravity fed)
Proficlear Premium Moving Bed Filter Module or Individual Module Our Price £699.99

STOP PRESS - Oase "All in One" Drum Filter Available Spring 2015 Biotec Premium 80000 Drum Filter

This filter is a 'stripped-down' version of the Proficlear Drum available as pump-fed only (max flow 12,500lph). It includes filter sponges so additional biological modules are not needed. This keeps down the size of the filter and the price - however, it is still capable of processing fish ponds of up to 40,000 Litres (8,880 Gallons) or Koi Carp stocked ponds of up to 20,000 Litres (4,440 Gallons).

RRP £2749.99 **Our Price £1799.99**

Pond Kits - Patio / All-in-one

Exclusive

Here at Pondkeeper we are used to putting projects together for our customers. We have the knowledge and experience to put together some fanatastic systems. By placing a complete project order we can cut the cost to save you money.

Please take a look at the following set-ups.... they may provide you with inspiration

EasyFit 2000

Create a pond of 2000 litres (440 gallon) using this super value kit. The size of pond you could create would be approximately 2x2m x 0.5m deep (6.5 feet square x 1'8" deep).

- 1 x PondXpert Triple Action 3000
- 1 x Flexiliner 4x4m pond liner 40yr
- 1 x Basic Underlay 4x4m
- 1 x 25mm Hose & clips (pair)

Our Price £79.99

Usually £120.71 You save **£40.72***

Pond Kits - Starter Fish Pond

Exclusive

All of the kits on this page are highly popular start-up pond sets. They all come complete with a genuine solids handling pump, UV filter and everything you need to get you started including all hose and clips.

Note that the pond dimension figures are just a guide. You could always dig your pond deeper - as long as the liner is big enough. You will find a deeper pond is easier to look after and better for your fish.

These kits are designed for low stocks of fish set up in a sheltered location & approx. 50cm (1' 8") deep

Pond Vacuums

Blagdon Pondmonsta

Vacuum operates on a continuous flow for fast and powerful pond cleaning. Water is passed through a hose, to a clever collector bag (available separately) which filters debris and allows the clean water to flow back into the pond.

- Powerful suction - 6000 litres per hour
- 6 metre delivery hose
- Remote control on/off switch
- Economical pump motor 350w
- Removes both small and large debris up to 32mm
- Easy to store and set up

FREE Pond Gloves with all electronic vacs.

Easy to store - takes up less space than traditional vacuums.

RRP £263.99 **Our Price £169.99** Spring 2012 was £199.99!

Collector RRP £62.99 **Our Price £53.99**

Pondmonsta + Collector £209.99 - save £13.99

Extension Pole RRP £16.99 **Our Price £14.99**

(adds 1.2m to handle length for deeper ponds)

Extra wide 30cm Brush Head RRP £15.68 **Our Price £14.99**

Quickens job by enabling user to vacuum wider areas.

Pondmonsta + Collector, Head & Extension £229.99 - save £23.97

Hozelock Pond Vacuum

A lightweight in-pond vacuum that offers outstanding value for money. The Hozelock Pond Vacuum is easy to use; simply put the vacuum in the pond and it will push a constant stream of dirty water and sludge up the tube of the vacuum and out of the pond. Chopping blades break down any large pieces of debris, allowing water to flow quickly and easily through the vacuum tube without any blockages.

- Cheaper to run than a comparable vacuum - only 80w
- Extremely quiet operation.
- 10m cable
- 3m waste hose
- Extendable handle up to 2m for a long reach
- Two nozzles; one wide for larger areas and one for corners
- Brightly coloured nozzles makes it easy to see in the pond

FREE Discharge Bag

RRP £179.99 **Our Price £99.99**

Hozelock Pond Vacuum Collection Basket £34.99

Hozelock Pond Vacuum & Collection Basket £119.99 - Save £14.99

Lightweight and lower power: Perfect for smaller ponds

Pond Vacuums

Oase Pondovac 4

Oase were the first to market with the pond vacuum concept and they continue to lead the way.

The **Pondovac 4** is the only chamber vacuum to offer continuous suction. This is achieved by an ingenious two-chamber fill/empty system.

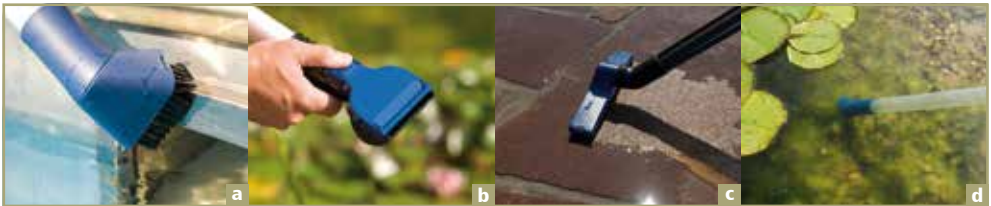

This top-of-the-range vacuum boasts the following features:

- Max suction depth 2.4m
- Powerful 1700 watt motor
- Wheels make it easy to manoeuvre
- Four interchangeable heads (detail shown below)
- 2.5m long discharge hose, 5m suction hose
- NEW hand regulator for adjusting flow power
- 3 year guarantee

RRP £436.99 **Our Price £269.99**

So easy to manoeuvre! Easy to store! Clever 'on board' tool storage keeps everything together

a) Brush Nozzle

For corners and stubborn debris

b) Universal Nozzle

Adjustable (2-10mm) reliably removes pond dirt without vacuuming gravel.

c) Wet & Dry Nozzle

Wider tool for indoors and out.

d) String Algae Nozzle

Strands can be separated and very easily removed.

PondXpert Cleanopond

We've searched high and low to bring you the most affordable pond vacuum in the UK. Despite its low price it offers an impressive range of features:

- Powerful 1400w motor, allowing 2.0m suction depth
- Large 30 Litre water chamber
- Automatic emptying. Chamber fills with dirty water then automatically switches off and empties - once empty it auto restarts and vacuuming continues
- 4m suction hose
- 2m Discharge hose
- Can be used indoors as a wet/dry vacuum
- Fine mesh discharge bag can be placed over discharge outlet meaning filtered water can be returned to pond. Often water will be very dirty and can simply be discharged to flower beds (great fertiliser!)
- Comprehensive accessories including 3 heads, dustbag for indoor use and discharge bag to collect debris

RRP £199.99 **Our Price £89.99**

A comprehensive set of accessories is included

If you always wanted a vac but found them too expensive - now is your chance to buy.

Pontec Pandomatic 3

Manufactured by parent company Oase this vac is essentially the same as the Pondovac Classic but with a simpler timer switch. Instead of emptying when full the vac works for 20 seconds then switches off and empties for 20 seconds, repeating this pattern until you are finished vacuuming. It also has only three interchangeable heads instead of four but included in the head range is the main 2-10mm Universal Head found in the more expensive Classic.

Bestseller

Our bestselling entry-level pond vacuum from Oase offers the usual high build quality found with this premium manufacturer. It boasts many features including:

- 2 year guarantee
- Powerful 1400w motor, allowing 2.0m suction depth.
- Compact 27 Litre water chamber.
- Low noise thanks to new noise reduction unit.

- Automatic emptying.
- 4m suction hose
- 2m Discharge hose
- Can be used indoors as a wet/dry vacuum.
- 4 suction nozzles: Crevice nozzle, algae nozzle, flat nozzle with rubber lip, variable sludge nozzle (2-10mm).

Oase
CLEAN WATER

RRP £304.99

Our Price £154.99

Filbert Frog's Top Tip

If you do not have a collection basket for your pond vacuum but you are running a box filter you could simply stuff the filter box with a piece of fine matting then direct the vacuum discharge hose into the box. The matting will then collect the dirt and debris and can be discarded after use.

Fine Foam Media -
see pg48

We used this method when performance testing PondXpert FlowMaster pumps. You can see how the white wadding collected the dirt.

Pond Vac Discharge Extension Kit

Add-on kit includes a 2.5m discharge extension tube, plus a discharge collection bag. Fits Oase vacs and Cleanopond.

Our Price £39.99

Discharge Collection Bag

Fine mesh discharge collection bag with locking mechanism for a tight fit.

Our Price £4.99

Replacement sponge Collar

Chamber vacs (Oase, Cleanopond) require the use of a sponge 'collar' to protect from particles.

Our Price £9.99

Pond Vac Indoor Bags

Replacement paper bags. Suitable for Cleanopond, Pondovac Start/Classic & Bermuda Ponds.

Pack of three £4.99

Pond Ultraviolet Clarifiers (UVCs)

Ultra Violet Clarifier

What is an Ultra Violet Clarifier?

A UVC consists of a chamber holding an electrical lamp behind quartz glass. Water is pumped through this chamber to prevent pond water turning green.

How Does It Work?

Pond water is subjected to high levels of U.V light. This U.V. light causes the microscopic single cell algae to be clumped together allowing them to be collected and broken down by the biological filter.

Before UVC

Typical "pea soup" colour.

After UVC

Clear water lets you see what is happening below the waterline.

PondXpert Greenstop UVC

New UVC from PondXpert offers incredible value for money. All come with a set of hosetails to take 20/25/32/40mm hose. 1 year guarantee. **Complete with 8.5m power cable.**

Evolution Aqua Evo UVC

evo 30 119.99 evo 55 139.99 evo 110 219.99

NEW 'evo' range from Evolution Aqua features 3 bulb sizes, 30 watt, 55 watt and 110 watt (2 x 55 watt bulbs). These are most advanced units on the market boasting the following features:

- Electronic ballast
- Integrated UV bulb life indicator and power light
- UV stabilised PE outer casing which has a higher reflective index than stainless steel.
- Unique design that gives less head loss than other manufacturers' models, saving energy costs.
- Thermal safety protection means that the unit will switch off before it overheats.
- 2" inlet and outlet on the evo110; and on the evo30 and 55 models there will be a 1.5" inlet or stepped hosetail option available.
- Unit can be mounted horizontally or vertically.

Lotus UVC

Great range from 8w to a massive 100 watts. Twin hosetails 20-40mm. Single UV bulbs cheaper to replace.

Double Ended

Pond Maintenance

Pond skimmers as shown in the diagram are designed to be attached to a pond pump (or a pump with a secondary inlet feature). Notice how the submersible pump feeds the filter as usual but also pulls in water from a skimmer.

Pond skimmers effectively free the pond surface of leaves, food remnants and other pollutants. Murky pond water or algae growth is therefore reduced as the pond is kept biologically balanced.

Pond Skimmer Net

Shallower fine net - ideal for fishing out leaves or algae.

RRP £27.29 **Our Price £14.99**

- Max head width 46cm (18").
- Telescopic reach (45-76cm)
- Total max length end-to-end 1.32m (52")
- Collapsible for easy storage

Bestseller

Oase Aquaskim 40

Effective skimmer used by attaching to a pond pump. (The Aquamax Eco is ideal as it has two inlets). It has an integrated debris basket (1.4ltr) and a large base so it can be weighted down. Can be used in depths 30-80cm. 25-40mm hose accepted.

Dimensions 45x40x39cm

RRP £94.99

Our Price £69.99

PondXpert Skimmer Attachment

Simply attach to your pump with 20-40 hose. Accepts pumpflow up to 4500lph.

Dimensions 35cm dia x 87cm height

RRP £79.99 Was £49.99

Our Price £32.99 Save £17

Oase Aquaskim 20

The Aquaskim 20 is designed for use with smaller pumps (4000 to 8000lph). It can keep a surface area clear of debris up to 20 square metres. 25mm to 40mm hosetail. Can cope with a 10cm variance in water level. 1.2 Litre waste basket volume.

RRP £84.99 **Our Price £59.99**

20 Litres £12.99

Pond Gravel

Cover material for soil and plant baskets. Gravel size 4/6mm

8 Litres £7.99

Underwater plants are essential parts of the pond. They look great, provide shelter for fish and are important as an outlet substrate during spawning season in the spring.

Unfortunately some species of fish wreck these plants by eating them. Plastic plants are a clever solution.

We offer 3 types of plastic plants which are about 100 cm long Waterweed (Elodea Densa), Hornwort (Ceratophyllum demersum) and Ludwigia (Ludwigia repens). The plants are weighted to keep them in position. We will make the selection of plant depending on stock

Our Price £14.99
Special Offer 3 for 2 £29.99

Live Pond Plants

After a successful trial in 2014 we are delighted to be able to offer you a selection of pond plants from a top UK nursery. Our customers love our Variety Packs of Six 9cm plants - Your Pack of 6 will be made from a selection of 13 plants. These will be chosen by the nursery pickers based on availability and quality of the plants at time of despatch (ie, what is in-season).

NEW

Ornamental Marginal Variety Pack

Marginal Plants grow well in wet or water logged soil near the water garden's edge or in shallow water.

Our Price £29.99

Pond Treatments - Fish Health

To keep fish successfully you need healthy water. The "settling down" phase of a new pond is particularly tricky as the biological cycle may take six weeks to six months to settle down.

A test kit will show if your pond ph value is near the perfect neutrality level (7). Incorrect levels can be due to filtration problems, immature ponds, inadequate planting, over feeding, over-stocking or rotting vegetation in the pond. If your fish are showing signs of distress or illness then we have a range of treatments to help nurse them back to health.

Blagdon Pond Salt

Improves water quality. In-built ph buffer

2.27kg £7.99

Pond Treatments - BlanketWeed Cures

BlanketWeed is a long string algae that thrives in healthy ornamental ponds. Its growth is increased by bright sunlight and shallow fast running water so it will be found in water-falls and unshaded pond areas. Overstocked fish ponds can also contribute.

The simplest 'natural' treatment is to stock the pond with plants and animals that actively consume blanket weed or compete for the same food. Other highly successful methods include the careful use of copper ions, barley straw and pond vacuums.

Blagdon Blanket Weed Buster

A probiotic blend of bacteria that will keep your pond healthy and free of algae and pond sludge.

Standard (2270l) **£9.49**
Value Pk (4500l) **£17.99**

Nishiko Goodbye Blanketweed

Does just what it says on the tub! Simply drop one water soluble bag into pond each week (each bag treats 4500l).

6 wk Pack **£9.99**
10 wk Tub **£14.99**
32 wk Tub **£44.99**

Blagdon Pond Balance

Safely and gradually adjusts your pond's water chemistry achieving a balance which clears blanketweed

500 gallon (2273l) **£9.99**

Dirty Water

Sludge Buster

Contains millions of bacteria which actively consume organic sludge. Use after anti algae products.

9000 Ltr pack

£10.99

Filbert Frog's Top Tip

Muddy brown or grey water is probably sediment stirred up from the pond bottom. Fish will often stir up sediment and your water will cloud when agitated by a net. New ponds start cloudy but will clear if you leave them to settle.

Clear Pond

Clears dirty, cloudy water by clumping together fine suspended clouding particles, which then sink and clear pond water.

250ml (5682l)

New Ponds: Any new pond build should be left unstocked until at least six weeks have elapsed in order to allow the pond's natural eco-balance to level. Beneficial 'friendly' bacteria will build up and breakdown any harmful toxins. A simple test kit will allow you to take water samples to measure ph (6-8 is ideal, 7 perfect), ammonia, and nitrate.

Water Testing Equipment

Tetra 6in1 Handy Test Pack

Test for Chlorine, pH, Carbonate, Hardness, Nitrite & Nitrate. Handy pack of 25 tests.

RRP £11.99 **Our Price Only £9.99**

Blagdon Pond Master Test Kit

Accurate tablet testing kit. Ten tests each for pH, Nitrite, Ammonia and Nitrate. 40 tests in total.

RRP £26.99 **Our Price Only £22.99**

Digital pH Tester

Easy, accurate testing of pond water quality. One touch self-calibration.

RRP £59.99 **Our Price Only £54.99**

Water Conditioners Tap water is toxic to fish as it contains chlorine and other chemicals. This should be neutralised with a treatment. Alternatively collected rainwater can be used. Bacterial boosters add friendly bacteria to the pond quickly - speeding up maturation

Blagdon Fresh Start Removes chlorine.

250ml £7.99
500ml £14.99

Contains bio-cultures. 2 soluble sachets

treats 9000lts **£5.99**

Pure Pond

Pure Pond Balls are packed full of healthy bacteria in a polymer shell. Add to your filter system to smooth out any peaks and troughs of the Ammonia/Nitrite cycle. Cleverly, the healthier your water the longer the balls last. 500ml treats 10,000 litres.

500ml £9.99
1000m £18.99
2000ml £29.99

Pure Pond Bomb

Pure Pond Bomb is a highly concentrated version of the balls. Simply drop one straight into your pond or filter to clean up organic waste and break down the ammonia and nitrite.

Single £14.99
3 Pack £39.99

Note: For Blagdon Liquid treatments, each 250ml treats 2273 litres (500 gal)

Air Pumps

Adding oxygen to a fishpond is very important to fish health. This is particularly true in summer months and if the pond is heavily stocked. Air pumps provide all the oxygen your pond needs - even at night when it is needed most.

Pond without air pump

Pond plus air pump

What Size of Pump for my pond?

Any additional air you can introduce to your pond will be beneficial, however if you are serious about keeping fish in your pond then we recommend a ratio of half the pond size (see table for examples). We always quote the manufacturer's performance figures against their products which will vary from these figures.

NOTE: Remember the higher the water temperature the less dissolved oxygen the water can hold.

Pond Size (Ltrs)	3000	4500	9000	12000	15000	30000
Air Pump (LPH)	1500	2250	4500	6000	7500	15000

Jebao Pond Air Pumps

We're proud to be able to bring to you these sturdy professional air-pumps at a highly competitive price. All pumps have been manufactured with a heavy metal outer casing to add ballast which reduces noise in operation.

Fully weatherproof with 2m (7 feet) power cable.

Air Pumps

Blagdon Pond Air

The Blagdon Pond Air is a high performance air pump, specifically designed for smaller pond use. Complete with 8m of air line and a stone for each outlet. Maximum operating depth is 1.2m.

Please note:

this pump is not weatherproof.

PA1 210lph, was £27.99 **£24.99**

PA2 330lph, was £36.49 **£29.99**

Superfish Air Box Air Pumps

Super idea to save on those precious pennies! Standard air pumps housed in a weatherproof container. This means you can purchase a weatherproof air pump that can remain outdoors at a really low price. Consider that a solar air pump will only produce approx 200lph in bright sunlight - these pumps can produce higher flows at very minimal running cost. The Air Box kit comes complete with air stones and an air tube and a spare membrane.

Air Line(s) is 7.5m long. Max operating depth 1m.

Model	Air Flow Ltrs	Power	Air Stones	RRP	OUR PRICE
Air-Box 1	96 per hr	2w	1	£15.99	£12.99

Fish Food

Filbert Frog's Top Tip
Only feed once a day at season end/start (5-8°C). In summer (10°C) can feed 2-3 times. Remove any uneaten food after 5 minutes.

In established pools, where there is a good balance of plants, wildlife and fish there will be plenty of natural food for your fish to feed on. However, pond food acts as a supplement to the fishes' diet and is enjoyable for the pondkeeper.

Often ponds will be more heavily stocked and there may not be enough plant life to attract insects. Here feeding is vital to the health of the fish. High protein foods should be fed in the summer with only low protein (eg, wheatgerm) fed in the winter.

Tetra Floating Sticks

A complete staple food for all fish. The UK's bestselling pond food.

Pond Lighting

BLAGDON
Pond Lighting Specialists

Ultra Powerful LED Lights

Blagdon Enhance LED Lights

Blagdon Enhance light sets feature 3 watt LED lights that are comparable in illumination to a 20 watt halogen bulb (Feature Light 0.76w). All lights supplied with 3 colour lenses (cyan, magenta and green).

3 Way Set RRP £111.49 **Our Price £79.99**

5 Way Set RRP £172.99 **Our Price £119.99**

Feature Light RRP £41.99 **Our Price £29.99**

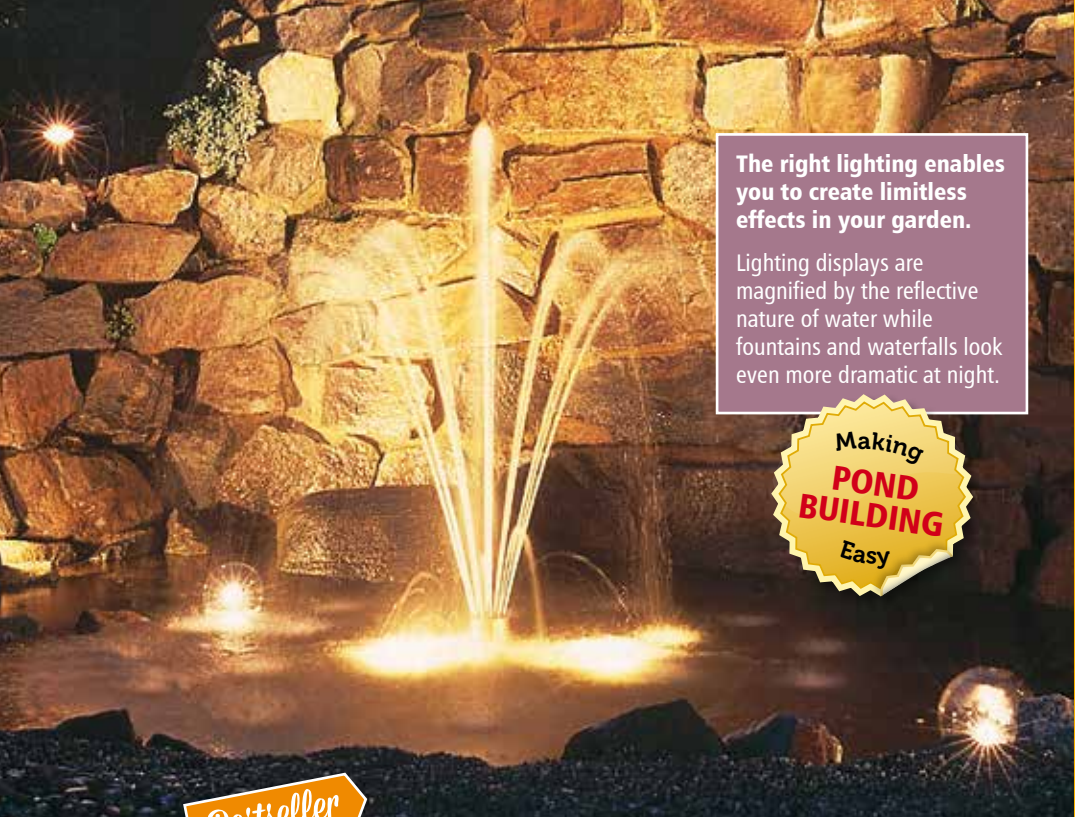

Velda Welkin Pond Light

Feature light designed to sit under the surface of your pond. Thirteen illuminated 'branches' produce a subtle lighting effect that mimics the reflection of stars in the night sky.

RRP £84.50 **Our Price £64.99**

The right lighting enables you to create limitless effects in your garden.

Lighting displays are magnified by the reflective nature of water while fountains and waterfalls look even more dramatic at night.

Brightpond 35 Was £34.99 **Now £29.99**

1m electrical cable to transformer, 6m to light.

Dimensions:

144mm diameter x 98mm

Ideal for focal points. Powerful enough to be used as general outdoor light.

Pond Deterrents

Once you have built your dream pond be careful of admirers!

If you decide to keep fish in your pond then they will be in danger of attack from predators. This is just nature at work but we all get attached to our pets and if you want to protect them then we have a number of effective solutions

Velda Heron Stop Spinner

This clever item hangs above your pond and constantly moves in the lightest wind. It has an eye that resembles that of a predator and this, coupled with the movement and reflective qualities, scares away herons from your pond and prized fish.

RRP £38.95 **Our Price £29.99**

Velda Heron Stop Reflector

This shiny reflector floats on your pond's surface and is in constant motion. The image of a predator's eye is perceived to be a threat by herons and scares them away.

RRP £24.79

Our Price £19.99

Pond Deterrents

Netfloats - Effective Floating Heron Deterrent

Here at pondkeeper herons often attack our ponds. We didn't like the spoiling effect netting created on the pond but these new Pond Protectors solved the problem in an attractive way. The protectors are supplied as floating grids that you lay the exposed perimeter of your pond. The heron can neither stand on them or poke its beak through them. Problem gone!

Netfloats

"NEW Improved Version - Anti-Algae Coating"

Made in the UK these are the original design. Finished in black they are available in two designs. The 'rings' are best for smaller ponds - the rectangular grids make installation in larger ponds easier.

Rings 37x32cm Rectangles 38x68cm (WxL)

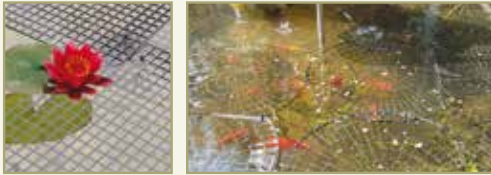

Each pack covers 3.5m length of pond perimeter (11' 6").

Netfloat Rings Pack of 20 £24.99

One pack protects a pond perimeter of 5.8m (19 feet).
each pack contains 30 rings and 60 joining clips.

RRP £29.99

Our Price £24.99

Ultrasonic Cordless Pest Repeller

Coverage of approx 5000 sq ft. Use to control cats, rodents, squirrels, deer, foxes, dogs etc. Effective range of 40ft (both PIR and ultrasound distance). 6x C batteries.

£19.99

Velda Heron Stop

Stretches a line across pond perimeter with bells attached. The ringing noise of the bells deters predators. Easy to fit and nearly invisible. Length of line is sufficient to protect ponds with a perimeter of 12.5m. Inc. 8 rods, 25m line, 8 bells.

£19.99

Replica Heron

Hérons are territorial creatures so usually avoid each other. Place this realistic replica near your pond and it should help to stop the real thing.

Was £19.99

Now £14.99

Pond Protector - Harmless electric fence

Efficient method to keep herons and cats away from a pond. The transformer gives off a low voltage electric pulse to the fence round the pond. This shocks herons or cats and persuades them to try elsewhere. Inclusive of transformer, 10 synthetic rods, 80m of electric fence, connectors and instructions. The electric cable has a length of 80m, which is sufficient to protect 40 metres of pond side with two cables. Extension set provides an additional 40m coverage.

Buy both together & save £29.99

Pond protector £99.99 Extension Kit £49.99

Protector + Extension £119.99

Water Blaster

Motion detector spots heron and a jet water spray repels it from your garden. Safe and effective. Adjustable range of sensitivity. Battery powered (4xAA)

- Range up to 10m in 120° arc
- Covers over 100sqm
- Fires a 5 second burst of water
- Resets itself after every activation
- Standard quick fit hose connection

£39.99

Velda Pond Guard

Protects your pond fish from cats and herons by means of glaring flashes of light and the penetrating sound of a bird of prey (flash only if required). Operates using a movement sensor. This is the ultimate deterrent. 180° angle/25m radius. Total height 1m. 20w amplifier. Supplied with mains charger.

£149.99

Solar Sonic Pest Repeller

Ultrasonic repelling and frequency motion sensor with 'hooting' sound. Can be wall mounted or spiked in ground. Features dial to adjust frequency from 15-25 kHz

£29.99

Pond Hose & Clips

As your pond water makes its journey from your pump to its destination - via a UVC, filter or waterfall - it needs to be constrained by a network of hose. This hose should be fixed securely to the equipment using clips - this helps prevent any chance of the hose becoming loose or leaks affecting performance. As with most things items fail due to the weakest link, that is why we only use premium hose and accessories.

PVC Pond Hose

Features:

- Smooth bore-minimal flow restriction
- Will not kink or split
- Convenient 5m lengths will suit most ponds

Clips

Features:

- Zinc plated, will not corrode
- Easy to tighten

Filbert Frog's Top Tip
Use the largest size of hose available for the equipment involved - this results in less frictional loss resulting in optimal performance.
