

SolarSublight Underwater Solar Spotlight

Manual

This product is solar-powered amphibious light. The highly efficient solar panel will convert solar energy into electrical energy and store in the built-in battery for the LED. The specific light-control system makes sure that the light will be charged in the daytime (enough light) automatically and light up in the evening (low light). In addition, it is easy to install, waterproof and dustproof. This product can be used in or out of the water

Features

- Solar-powered, energy saving.
- No AC or DC power is needed, easy to install.
- Amphibious design. Waterproof and dustproof (IP68), can be put in the water.
- Adjustable head, can be adjusted to 90 degrees.
- Auto sensor, light can charge itself during day time (enough sunlight) and light up at night.
- Perfect for pool, pond, garden, path road, and other decoration & lighting.

Solar Panel	0.3W	0.6W	2.5W
Battery	600mAh (Nimh AA)	800mAh (Nimh AA)	3.7V/1800mAh Lithium
Wire Length	3.2m	3.2+1.15m	3.2+1.15+1.15m

Product Performance

- Will illuminate for 8 hours if battery has charged for 20 hours in sunlight.

Operation

1. Fix the control box into the ground (using ground stake) or on the wall.
2. Make sure that the solar panel is not sheltered from the sun.
3. Set the head(s) to illuminate your choice of highlight.
4. Tear out the protective film on the solar panel (if present).
5. Turn on the switch and it will be charged in the daytime and light up in the evening automatically.
6. Rear of solar panel has three switches/modes:
 - ON1 Lights on - Automatically illuminates at dusk
 - OFF Switches unit off (no charging, no illumination)

ON2 Lights flashing mode on - Automatically illuminates at dusk

Method of Operation (RGB model only)

Firstly, press the button to turn on the lights, it is red color.

Press the button one more time, it is green color.

Press the button third time, it is blue color.

Press the button fourth time, it is color changing mode. Press the button fifth time, it turns off.

Notes

1. As the charging effect of the solar panel is depended on the sunlight, the LED light time is affected by weather, seasons, places, etc.
2. It is charging only when the switch is turned ON.
3. Don't strike the product, so as not to cause irreversible damage.
4. The stake is sharp that you must be careful when using it. Don't let children play with it.

Limited Warranty

This product is guaranteed for a period of 12 months (from the date of purchase for material or manufacturing defects). The guarantee covers the substitution of defective parts. However, the guarantee is considered null and void in the case of improper use, improper handling or negligence on the part of the buyer. If your pondXpert light fails please take it back to the retail outlet from where it was purchased. You will be required to take your receipt/proof of purchase with you. This does not affect your statutory rights.
